

APPLICATIONS & SPECIFICATIONS

APPLICATIONS

- Throw-Down convenience
- Tough enclosure
- Dual Fiber Links with Status LEDs
- Extended Range Fiber Optics

SPECIFICATIONS

- 1G/100/10 Ethernet
- Separate Dual AC inputs
- POE Option
- External DC backup battery (optional)
- Rain cover for outdoor usage
- 12 isolated paths
- Ethernet panel connectors

DFT-TOTE E12

Custom DFT Fiber Series Transport

The JFS DFT-TOTE E12 is a Gigabit Ethernet version of the Tote, providing 12 isolated paths of GigE. In addition to network trunking, this solution can also be used for transporting AVB, RAVENNA/AES67, and Dante
